In 1917 the Association took over the maintenance and operation of the dam under the advisory supervision of the U. S. Reclamation Service. The installed capacity of the hydro-electric system of the association has been recently increased to 80,000 h. p. rated capacity, through the construction of two additional plants and two additional dams below Roosevelt Dam. The new plants utilize the storage capacity of Roosevelt Lake, using the same water that passes through Roosevelt Dam power house before being finally used for irrigating the 240,000 acres of productive farm lands of the Association, the stockholders of which are all land owners in Salt River Valley. The entire 40,000 h. p. output from one of the new plants has been sold under a 25-year contract to Inspiration Consolidated Copper Co., the largest consumer of electric power in Arizona, and the output from the other new plant has been sold to Central Arizona Lt. & Pow. Co.

**Guaranteed Bonds.**—The Association also guarantees as to principal and interest \$665,000 6% bonds of the Roosevelt Agricultural Impt. Dist. No. 1 (due \$35,000 yearly on Aug. 1 from 1936 to 1954 incl.) and \$1,578,000 6% bonds of Agricultural Impt. Dist. No. 2 (due serially 1939 to 1954), for details of which see V. 119, p. 1659, and our "State and Municipal" Compendium, Part II., of Dec. 27 1924 (p. 101). Both of the above mentioned districts are located entirely within the lands of the association and are a part of it.

**Stock.**—One share of stock is allotted to each acre of land and cannot be separated from it.

**Bonds.**—The serial bond issues of 1923 and 1924 listed above are direct and general obligations of the association, additionally secured by an assessment already levied and recorded against all of the lands of the stockholders of the association. These assessments are a lien against the land ranking equally with the assessments securing the two issues of Impt. Dist. bonds guaranteed by the association and those levied to repay the U. S. Govt. construction charges and prior to all mortgages including those which secure Federal Land Bank and Joint Stock Land Bank bonds. The serial issue of 1924 and the two guaranteed issues, known as the "Horse Mesa Dam" bonds, are further secured by a first lien against the hydro-electric revenue developed by these issues and by pledge with the trustee of the Inspiration Copper Co. contract. Hydro-electric revenue of the association was reported as \$650,000 in 1924 and is estimated at \$2,300,000 annually on completion of present additions in 1927. All issues are non-callable.

The bonds of 1923 mature \$180,000 annually Feb. 1 1928 to 1947. \$1,800,000 were offered by Banks, Huntley & Co., M. H. Lewis & Co., Carstens & Earles, Inc., &c., in May 1923, at 99 and interest, to yield about 6.10%. V. 116, p. 2018.

The bonds of 1924 mature serially Aug. 1 1938 to 1943. Interest at Farmers' Loan & Trust Co., New York City, and Anglo-California Trust Co., San Francisco. \$2,500,000 were offered in Oct. 1924 by Rutter & Co., New York, Anglo London Paris Co., San Francisco, &c., &c., at 100 and interest.

The bonds of 1927 mature serially July 1, 1929 to 1931. ### INDIANA GAS UTILITIES CO.

**Control.**—Co.'s entire common stock is owned by Gas Utilities, Inc.

**ORGANIZATION.**—Incorp. June 1926. Acquired a group of properties, formerly owned by affiliated companies, which supply gas without competition in Terre Haute, Richmond, Brazil and West Terre Haute, Ind., serving a population estimated to exceed 115,000. Extension of co.'s service to Clinton, Ind., is under consideration. As of Dec. 1926 the system had 21,739 customers; gas sales, 1926, 778,118,400 cu. ft.

The properties include gas manufacturing plants in Richmond, Terre Haute and Brazil, having an aggregate daily capacity of more than 6,500,000 cubic feet, together with comprehensive distribution system in Richmond, Terre Haute, West Terre Haute and Brazil, including approximately 223 miles of mains. Co. purchases all of the gas now distributed in Terre Haute and West Terre Haute from a local by-product coke plant under a long-term contract and its own manufacturing facilities in that city are therefore reserved for standby service.

A high-pressure gas line from Terre Haute to Brazil was completed in 1926, and co. is planning the construction at an early date of another from Terre Haute north to Clinton. These new mains will tie the western group of cities served into a single interconnected system to be supplied with gas directly from Terre Haute and will enable co. to reach a substantial population not heretofore receiving gas service from any source.

**Franchises.**—The properties other than in Brazil are operated under indeterminate permits granted under the Indiana P. S. Commission law. The Brazil franchise expires in 1951. V. 123, p. 324.

### MIDWAY GAS CO.

Control.—Controlled by the same interests as Southern California Gas Co. ORGANIZATION.—Incorp. in California in Nov. 1911. Prior to June 30 1915 co. owned only its pipe lines, which were operated under lease. On that date, under authority from the Railroad Commission of the State of California (incident to reorganization plans), co. acquired by purchase natural gas wells and compressor stations, together with valuable rights and contracts for purchase of natural gas in Kern County, Calif. At same time contracts were obtained for sale of natural gas to distributing companies in and near Los Angeles, Calif.

Midway Gas Co. now owns the entire \$400,000 outstanding (\$3,000,000 authorized, par \$100) capital stock of Valley Natural Gas Co., which latter co. was incorp. Nov. 26 1916 in California as successor to California Natural Gas Co., and is now engaged in transmitting and distributing natural gas in Kern County, Calif., for industrial use, and also wholesales to Bakersfield, Taft, Maricopa, Fellows and surrounding territory.

Spring, Signal Hill and Torrance oil fields and 636 miles of gathering and transmission mains, ranging from 2 to 16 inches in size. Co. has a total pipe line capacity of 225 million cu. ft. per day.

### BOSTON ELEVATED RAILWAY.

ORGANIZATION.—Charter granted in 1897; provides for an extensive system of free transfers. Leases for 99 years from 1903 23.753 miles Old Colony Street Ry. track. The latter company has since been merged into the Eastern Massachusetts Street Ry. (formerly the Bay State Street Ry.). On June 10 1922 the Boston Elevated and the West End Street Ry. were consolidated under terms of an Act passed by the Mass. Legislature in July 1911. Prior to the consolidation the West End St. Ry. had been leased by the El. Co. Under terms of the consolidation Act holders of West End pref. stock (\$50 par) received in exchange for each 2 shares thereof one share of Boston El. 1st pref. 8% stock (\$100 par), and holders of West End common received for each 2 shares (\$50 par) one share Boston El. 2d pref. 7% stock (\$100 par). For full particulars of the consolidation Act and history of West End St. Ry. see "Electric Railway" Supplement of April 29 1922.

Effective July 1 1918 under the terms of the "Public Control Act," the co. was placed under the management of five trustees appointed by the Governor. The Act provides for public operation for a period of 10 years or longer, trustees have power to regulate fares and service, fares must be sufficient to meet cost of service, pref. divs. at 7% and com. divs. at rate of \$5 a share for first 2 years, \$5 50 for next 2 years and \$6 during balance of period of public operation. State has option of taking over road by assuming liabilities and paying in cash an amount equal to that paid in by stockholders. For full details see "Electric Railway" Supplement of April 26 1924.

On May 1 1920 the State gave to the co. \$7,868,000 in payment for the Cambridge subway. The subway is rented to the co. at a rate equivalent to 1/2 of 1% more than the int. on the bonds issued by the State on account of the purchase of the property. See also V. 110, p. 1414. The extra 1/2% to be used to retire the bonds serially; the co. is to pay rental at rate of 4 1/2% annually on the amount retired.

For change in trustees of the road see V. 121, p. 72, 1099.

Wages.—A new agreement retaining the existing basic wage of carmen but allowing a 2c. per hour increase to one-man car operators, was to remain in effect until June 30 1926. See for more particulars V. 121, p. 2154. Agreement was extended one year to June 30 1927.

### NEW ENGLAND INVESTMENT & SECURITY CO.

CONTROL.—The \$100,000 common stock of this company formerly held by Sanderson & Porter was acquired by a preferred stockholders' committee (V. 99, p. 1215) in Oct. 1914. Holders of about 34,000 shares of pref. stock subscribed \$10 for every share of pref. owned in order to effect the purchase. V. 99, p. 609, 675, 1215. It is stated that about \$1 75 per share was returned to subscribers.

The N. Y. N. H. & Hartford RR. Co. owns the \$13,115,000 funding gold notes, and in pursuance of the order of the U. S. Department of Justice the notes were to have been sold by July 1 1919, but in March 1919 Judge Mayer granted an extension of time to July 1 1921. A further extension to April 1 1923 was granted. Favorable action by the Federal courts in 1925 and by the Mass. Legislature in 1926 released the New Haven from obligation to dispose of the notes and permitted the New Haven to assume control of the New England Investment & Security Co.

In Aug. 1921 the co. acquired from the N. Y. N. H. & H. RR. \$594,000 par value of above notes formerly held by the New Eng. Nav. Co. V. 113, p. 960.

St. Ry. became operative. The latter has a par value of \$80 per share and is entitled to \$105 per share in the event of liquidation and to cumulative divs. of \$5 per share. Exchange of the former stock relieves the N. Y. N. H. & H. RR. of its guaranty of dividends thereon. V. 104, p. 2559; V. 105, p. 1618. As of Apr. 1 1926, 38,885 shares had been exchanged.

**ORGANIZATION.**—Incorp. in Mass. on Nov. 15 1901. **Franchises** perpetual. Acquired the Framingham Union St. Ry., Framingham Southborough & Marlborough St. Ry., and the Marlborough & Framingham St. Ry.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—Owns and operates 83,619 miles of track. Rails, 75-lb. Has 91 cars. Also operates buses.

In March 1907 Mass. RR. Commission granted right to do an express and freight business over entire line. In Nov. 1912 made a contract with the Boston Elevated Ry. for the operation of express cars over that company's tracks to the freight express terminal on Harrison Ave.

In May 1925, Judge Wait, in the Mass. Supreme Court at Boston, authorized Franklin T. Miller, receiver of the company, to operate buses through 19 towns, including Boston, Newton, Waltham, Marlboro, &c., all in Mass. For details about unsuccessful endeavors to enjoin co. from operating buses, see V. 122, p. 3209. In June 1926 co. was expected to soon inaugurate a bus service between Boston and Worcester. V. 122, p. 3309.

For injunction against competing bus line, see V. 121, p. 704.

**New Reorganization Plan.**—A new reorganization plan dated July 15 1925 superseding the plan dated July 16 1924 has been formulated. Briefly the plan provides that a new company shall be organized into the following capitalization:

First mortgage 20-year 7% bonds	\$252,000
Reorganization bonds (to be secured by second mortgage)	756,000
6% preferred stock	756,000
Common stock (an estimate merely, the total depending upon the total capitalization approved by the department)	1,388,000

A small amount—not exceeding \$10,000 of 7% prior preference stock may be issued. This if done will be for the purpose of providing the directors of the new company with an additional possible medium for raising new money.

All the 252,000 of first mortgage bonds and part of the common stock are reserved for subscription, for the purpose of raising new money for expenses in connection with the receivership and reorganization, for working capital or for other purposes approved by the Utilities Commission.

**Right of Subscription.**—For the purpose of giving depositors the opportunity to benefit by whatever success may come to the new company the Committee offers to depositors the prior right to subscribe to the securities to be sold to raise necessary cash.

One-half of the first mortgage bonds, viz., \$126,000, are therefore offered for subscription to depositors at par, together with a bonus of common stock and warrants representing future rights of subscription and of distribution referred to later.

Since the working capital resulting from the sale of the first half of these bonds may not be sufficient, the Committee feels that reasonable safety requires provision of means by which further money can be raised in the future if needed. For this purpose the remaining \$126,000 of first mortgage bonds and the remainder of the common stock are reserved for sale by the new board of directors, if the board determines that the proceeds thereof are necessary for the purposes of the new company. If sold before Feb. 1 1929, these reserved bonds (each with a proportionate amount of the common stock reserved) are first to be offered to holders of the warrants. Bonds so reserved which are not sold before that date will remain available for issue by the new company but the common stock reserved and not utilized before said date will be distributed to holders of the warrants proportionately.

**Distribution of Securities.**—Each depositor, whether a subscriber for first mortgage bonds or not, will receive for each \$1,000 bond plus any accrued interest:

(a) \$300 face amount of reorganization bonds; (b) \$300 par value of preferred stock and (c) \$400 par value of common stock.  
Each subscriber will in addition receive for each \$50 paid:  
(d) \$50 first mortgage bonds; (e) A pro rata share (1-2520) of one-half of the balance of the common stock of the new company; (f) A warrant entitling the holder thereof to—

(1) An option (not an obligation) to purchase for \$50 and int. \$50 of first mortgage bonds and a pro rata share of the common stock reserved if before Feb. 1 1929 the directors of the new company determine to offer the second lot of first mortgage bonds and stock for sale; and (2) The right without making any payment, to receive a pro rata share of the common stock reserved if the second lot of first mortgage bonds is not offered for sale before Feb. 1 1929; and if the bonds are offered, to receive without payment a pro rata share of the common stock, if any, not sold in conjunction with first mortgage bonds prior to Feb. 1 1929.

Assuming that all bondholders deposit their bonds and that the whole of the first half of first mortgage bonds is subscribed for, the distribution of

securities (on the basis of a capitalization of \$2,900,000 plus the first mortgage bonds) will be as follows:

1st mtge. 20-year 7% bonds sold \$126,000; available for future sale \$126,000; total	\$252,000
Reorganization bonds (to depositors on basis of \$300 of reorganization bonds for each \$1,000 of old bonds)	756,000
6% preferred stock (to depositors on basis of \$300 preferred stock for each \$1,000 of old bonds)	756,000
Common stock: To deposits on basis of \$400 common stock for each \$1,000 of old bonds	1,008,000
Bonus with first half of first mortgage bonds (estimate)	*190,000
Reserved as bonus for second half of first mortgage bonds if sold before Feb. 1 1929, otherwise to be distributed to holders of warrants (est.)	*190,000
A small amount of Prior preference stock, perhaps to be issued as before stated.	

\* The amount of common stock available for bonus depends on the decision of the Department of Public Utilities as to capitalization. It may conceivably be less, though the Committee think it should be greater, and will endeavor to obtain permission for larger capitalization.—V. 124, p. 1065.

**Conversion of Bonds.**—The indenture provides that while these bonds are outstanding no obligations can be secured by mortgage on the property of Narrag. El. Ltg. Co. or a successor thereto except 1st mtge. bonds of the character above described, and that if such 1st mtge. bonds are issued they must be deposited with trustee for exchange for series A bonds. All the series A bonds must thereupon be called for exchange for 1st mtge. bonds to the extent permitted by the aggregate amount of 1st mtge. bonds so deposited and as to the balance, if any.

**Bonds.**—The collat. tr. series A 5% g. bonds are secured by deposit of at least 96% of outstanding capital stock of the Narrag. El. Ltg. Co. In addition are guaranteed (prin. & int.) by indorsement by New England Power Association (see separate statement).

No bonds or pref. stocks may be issued and no mortgages placed on the property of Narrag. El. Ltg. Co. and its subsidiaries as long as these bonds are outstanding, unless deposited with trustee.

Series A was closed with the issue of \$27,500,000 5% bonds. Additional bonds may be issued in series of such tenor as directors may, from time to time, determine, (a) for refunding purposes; (b) for 75% of additions acquired after Aug. 1 1926, when consolidated net earnings of co. and its subsidiaries for 12 consecutive months within preceding 15 months have been at least twice annual interest on all collat. tr. bonds outstanding, incl. proposed issue.

The mortgage contains provisions for substitution of collateral in case of Narragansett Electric Lighting Co. being succeeded by another company. For details see V. 124, p. 646. Also contains provisions for exchange of

the series A bonds against deposit of certain 1st mtge. bonds, when and if issued, or such 1st mtge. bonds and cash, such 1st mtge. bonds to be secured by a first lien on the franchises and physical properties owned on Aug. 1 1926 by Narragansett Lighting Co. The mortgage, under which such 1st mtge. bonds are to be issued, will in general be of the same tenor as the collat. trust series A bonds, incl. maturity, interest rate, coll. tax, sinking fund provisions, &c. The above provisions were made in view of the contemplated transfer of the property and business of the Narragansett El. Ltg. Co. to United Electric Power Co. and the issuance of 1st mtge. bonds to be used to reduce or retire these Narragansett Co. coll. trust bonds, or to be used as collateral security for them. For details see V. 124, p. 649, under heading "Rhode Island Public Service Co."

First mortgage bonds in excess of \$27,500,000 may be issued for 75% of additional properties acquired by Narrag. El. Ltg. Co., or a successor thereto, and (or) its subsidiary corporations after Aug. 1 1926, and only when consolidated net earnings of Narrag. El. Ltg. Co. or its successor, and its subsidiaries, for 12 consecutive months within preceding 15 months have been at least twice annual interest on all the bonds outstanding under the mortgage, incl. proposed issue.

Conversion of Bonds.—The indenture provides that while these bonds are outstanding no obligations can be secured by mortgage on the property of Narrag. El. Ltg. Co. or a successor thereto except 1st mtge. bonds of the character above described, and that if such 1st mtge. bonds are issued they must be deposited with trustee for exchange for series A bonds. All the series A bonds must thereupon be called for exchange for 1st mtge. bonds to the extent permitted by the aggregate amount of 1st mtge. bonds so deposited and as to the balance, if any.

There is an annual sinking fund commencing July 1 1929, equal to 1/4% of the largest amount of series A bonds at any time outstanding.

Series A 5% are red., whole or part, on any int. date, on 30 days notice at 102 1/2 through Jan. 1 1932; at 102 through Jan. 1 1937; at 101 1/2 through Jan. 1 1942; at 101 through Jan. 1 1947; at 100 1/2 through Jan. 1 1952; thereafter at 100; in all cases with interest. Principal and interest payable at trustee's office in Providence, R. I., or at the fiscal agency of the company in Boston, New York, or Chicago. In Jan. 1927 Harris, Forbes & Co., Bodell & Co., F. L. Carlisle & Co., Inc., Stone & Webster and Blodgett, Inc., Baker, Young & Co., the First National Corp. (of Boston), and Bond & Goodwin sold \$27,000,000 series A 5% at 99 and int., to yield over 5.06%.

#### NEW YORK NEW HAVEN & HARTFORD RAILROAD (Trolley Lines).

The New York New Haven & Hartford's interests in trolley lines have been very extensive, and under an agreement reached with the U. S. Government in 1914 the company pledged itself to dispose of the same.

The investments in the trolley companies held by the N. Y. N. H. & H., which were to be disposed of under the decree of the Federal Court (date by which New Haven is to dispose of these holdings was extended from year to year, latest extension being to April 1 1926), were as follows:

Berkshire Street Ry. The Vermont Co.  
Connecticut Co. Shore Line Electric RR. of N. Y.  
New York & Stamford Ry.

\* The Rhode Island Co. was originally included in this list, but the stock of that company was sold on Sept. 3 1920 at public auction—see that company on subsequent page.

However, on Nov. 20 1925 Federal Judge Francis A. Winslow of the U. S. Court for the Southern District of New York entered an order modifying the decree of Oct. 17 1914 in the following respects: The New York New Haven & Hartford R.R. is relieved of the obligation to sell any of the securities of the New York or Massachusetts trolleys. The trustees, to whom was transferred the capital stock of the Connecticut Co., were directed to retransfer the stock to the Railroad company. V. 121, p. 2635.

The N. Y. N. H. & H. also owns \$4,984,938 of the \$5,005,250 stock of the N. Y. Westchester & Boston Ry., an electric road, which it was under no obligation to dispose of and which was to be developed as part of the New Haven system.—V. 99, p. 270, 604, 1125, 1210; V. 100, p. 842; V. 104, p. 2010; V. 121, p. 2270, 2518, 2635.

The Westchester Street RR. Co. was sold at referee's sale on July 19 1926. On Dec. 6 1926 the City Council of Springfield, Mass., approved the agreement between the city and the N. Y. N. H. & Hartford RR. by which the latter acquired the lines of the Springfield (Mass.) Street Ry. See under heading of this latter co. V. 123, p. 3186.

Stock.—On Nov. 17 1919 an amendment was made to the charter which provides that the company shall have the right to redeem its first pref. stock, all or in part, at 112. Preference B and Preference BB stocks are redeemable, all or in part, at 106. V. 109, p. 1990. All classes of stock are listed on the Boston Stock Exchange. V. 120, p. 85. On April 28 1925 stockholders voted to change the par value of the common stock from \$100 to \$20 per share, each old share being exchangeable for 5 new shares. Cities Service Bankers' shares of \$10 par value exchangeable two for one share of the new \$20 par value common stock. V. 120, p. 2267.

In Mar. 1925 all of the common cash and common stock scrip dividends which had theretofore been issued in lieu of cash and scrip were redeemed, thereby increasing the amount of common stock outstanding to approximately \$71,000,000. V. 120, p. 2267.

In March 1926 Pearsons, Taft Co., Henry L. Doherty & Co., &c., &c., offered 250,000 common shares (par \$20), each share having 1-5 of a vote, at \$42, in connection with conversion of convertible debentures. V. 122, p. 1607. In Jan. 1927 Pearsons-Taft Co., Henry L. Doherty & Co., DeFremercy & Co. and Russell-Colvin Co. sold 250,000 common shares (represented by conversions of convertible debentures) at market to yield in cash and stock dividend over 8%. V. 124, p. 642. In Sept. 1926 Pearsons, Taft Co., H. L. Doherty Co., &c., sold 50,000 shs. 6% cum. pref. stock at market.

Dividends.—Divs. on the pref. stock commenced with the date of organization Sept. 2 1910 and were paid monthly at the rate of 6% per annum until Aug. 1 1914. Divs. at the same rate were resumed on Jan. 1 1916 and the accrued accumulated divs. were paid in convertible debentures, practically all of which have since been converted. Cash divs. paid regularly to and incl. June 1 1921. Divs. were then paid in non-interest-bearing scrip up to Sept. 1 1922, when cash divs. were resumed. The scrip was redeemed either through payment in cash or conversion into 8% conv. debentures "E." V. 115, p. 649. Subsequent divs. of 1/2 of 1% monthly have been paid regularly in cash. An initial div. of 1/2 of 1% was paid Jan. 1 1920 on the 6% Preference B stock. Same rate paid regularly to and incl. June 1921. Divs. were then paid in non-interest-bearing scrip up to Oct. 1 1922, when cash divs. were resumed. The scrip was redeemed either through payment in cash or conversion into 8% conv. debentures "E." V. 114, p. 649, 873. Subsequent divs. of 1/2 of 1% monthly have been paid regularly in cash. On pref. BB stock an initial div. was paid Nov. 1 1922 of 1/2 of 1% cash and paid regularly since. Cash divs. on com. stock began with the date of organization, Sept. 2 1910, and were paid monthly up to Aug. 1 1914 at the following rates per annum: 3%, 1910; 3%, 1911; 4%, 1912; 5%, 1913; 6%, 1914, and were then suspended until Jan. 1 1916, at which time a distribution of 9% of convertible debentures was made, and on July 1 1916 a further distribution of 3% of conv. debts. From that time to and incl. June 1 1921, cash divs. were paid on the com. stock at the rate of 6% p. a. Divs. were then paid in non-interest-bearing scrip to March 1 1925, when monthly cash divs. were resumed at the rate of 1/2 of 1% monthly, and common cash scrip was redeemed in cash. Regular cash divs. paid monthly thereafter to date. V. 120, p. 451. On Sept. 1 1916 a div. of 2% in com. stock was paid and on Dec. 1 a div. of 4% in com. stock was paid. During 1917 co. declared a dividend of 6% payable in com. stock in 1918, 9% in com. stock, and in 1919, 12% in com. stock. The co. paid a div. of 1 1/2% in com. stock on Feb. 1 1920, placing the div. at an annual rate of 15%. Stock divs. at this rate were paid regularly to and incl. June 1 1921. Divs. were then paid in non-interest-bearing scrip at the rate of 15% per annum, to Feb. 1 1925, when all com. stock scrip was converted into com. stock. V. 120, p. 451. On March 1 1925 a regular monthly div. of 1/2% in cash and 1/2% in com. stock was paid. V. 121, p. 2037, 2519. Similar monthly divs. of 1/2% cash and 1/2% in com. stock were paid in 1926 to and incl. May 1927.

After cum. pref. class A and pref. class B stocks received their cum. dividends for all preceding quarters, common class A stock receives a non-cum. div. of \$1.50 per annum, and after that common class B stock is entitled to a dividend at the rate of \$1.50 per annum. Any additional dividends to be divided equally share for share among common class A, common class B stock and the dividend participations.

For details, see V. 122, p. 3338.

In Aug. 1925 Pynchon & Co., West & Co. and Jackson & Curtis sold 40,000 shares \$7 cum. pref. stock, Class A, for \$97.50 per share and div. to yield 7.18%. These shares are non-callable. V. 121, p. 198, 585.

**Dividends.**—On Class "A" common shares a regular quarterly dividend of 37½c. was paid on Oct. 1 1925 to holders of record Sept. 15, who were given the option of accepting an equivalent amount of common stock, Class "A," at \$25 per share. V. 121, p. 1227. Similar dividends with option

## METROPOLITAN EDISON CO.

Controlled by General Gas & Electric Corp.

**Management.**—W. S. Barstow Management Association, Inc.

**ORGANIZATION.**—Formed in Pennsylvania July 24 1922, succeeding company of the same name formed in 1917 through consolidation of the Metropolitan Electric Co. (which had been operating in Reading and vicinity since 1894), the Edison Electric Illuminating Co. at Lebanon, Pa., and the Lebanon Valley Electric Light Co. In addition to its property owned direct, company owns the entire outstanding Common stocks of (a) Pennsylvania Edison Co., Easton, Pa. (which controls Easton Gas Works, Interurban Gas Co., Nazareth, Pa.), (b) Hanover & McSherrytowns Street Ry. Co., (c) Maryland Pub. Service Co., Frederick, Md. V. 123, p. 2514.

In 1926 the Pennsylvania S. S. Commission authorized the consolidation with the co. of the York Haven Water & Power Co., Hanover Power Co., the Gettysburg Electric Co. and the Cumberland Valley Lt. & Pow. Co. In Feb. 1927 the Metropolitan Pow. Co. was also merged with the company. The mergers did not effect any change in existing operating plans. V. 122, p. 1762. In 1926 merged the York Haven (Pa.) Water & Power Co. V. 123, p. 2777.

Co. also owns \$750,000 Reading Transit Co. class B pref. stock, which is paying dividends at the annual rate of 7%.

**FIELD OF OPERATION AND CHARACTER OF BUSINESS.**—Company supplies electric light and power in an extensive territory in the eastern part of Pennsylvania serving the cities of Reading and Lebanon, Pa., and surrounding districts, that part directly served including 174 communities, in addition to which power is wholesaled to local companies in 90 large boroughs and towns. It supplies also practically all power used by the Reading Transit Co. Through a system of high-power transmission lines the company controls an inter-connected power system extending from Easton, Pa. on the Delaware River, southwesterly across Pennsylvania to Gettysburg and Hanover, and south to Silver Run and Union Mills, Md. As of Dec. 31 1926 the companies had 87,183 customers, against 80,440 on Dec. 31 1925. Total population served, 788,000.

Company's franchises and rights, with one unimportant exception, are unlimited as to time and without burdensome restrictions. There is no competition of similar class of service.

The properties of company include 495 miles of transmission lines and 619 miles of distribution lines. The principal power plant, located on the Schuylkill River at West Reading, has an installed generating capacity of 65,000 k.w.

The property of the Pennsylvania Edison Co., which operates in and about Easton, Pa., includes its main steam station with a generating capacity of 33,500 k. w., three small hydro-electric plants, together with 141 miles of transmission lines and 370 miles of distribution lines.

**Super-Power System.**—The Metropolitan Edison properties form a considerable portion of the Pennsylvania-New Jersey power system of the General Gas & Electric Corp. Being interconnected by high-tension transmission lines, they are operated as a super-power system and are included in the Boston-Washington zone of the Super-Power Survey made for the Department of the Interior of the U. S. Government. To add to the power supply of this system, Metropolitan Power Co., a subsidiary (now merged) of Metropolitan Edison Co., completed and placed in service in Aug. 1926 the second 35,000 k.w. unit of a 200,000 k.w. steam power station on the Susquehanna River near Harrisburg, Pa.; total installed generating capacity 65,000 k.w. service during 1926.

1927 corp. was granted authority by N. Y. P. U. Commission to acquire and hold all or more than 10% of outstanding com. stock of Western New York Utilities, Inc. V. 123, p. 1381; V. 124, p. 1664.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—The subsidiary companies are engaged in the production, transmission and distribution of electric energy, principally hydro-electric, in western and central New York, and extending into northwestern Pennsylvania. They serve a highly developed industrial territory extending from Erie, Pa., to and beyond Syracuse, N. Y., and from the Niagara frontier to Bradford, Pa. This territory includes 17 counties in New York and 2 counties in Pennsylvania, and its zone is roughly 300 miles from east to west, and 100 miles from north to south. Within this region over 2,000,000 people are served with light and power and of this number over 400,000 are either direct or indirect customers of the system.

Included in the territory directly served are the cities of Buffalo, Niagara Falls, Lackawanna, Jamestown and Olean, N. Y., and Bradford, Pa., while the cities of Rochester, Syracuse, Lockport, Batavia and Dunkirk, N. Y., and Erie, Pa., are supplied in whole or in part with electric energy through the system's transmission lines.

At the present time the system has a total operating capacity of about 970,000 h. p., of which over 730,000 h. p. is hydro-electric. The hydro-electric power is supplied by the plants of the Niagara Falls Power Co., located at Niagara Falls, on the American and Canadian sides, Niagara, Lockport & Ontario Power Co.'s plant on the Salmon River, and from their leased plant at Minetto, N. Y., on the Oswego River. Additional hydro-electric power is purchased from the Hydro-Electric Power Commission of Ontario, most of which is received under long-term contracts.

The capacity of the steam plants amounts to over 250,000 h. p., including the new unit in River Road Station put into service during the fall of 1926. The system's largest steam plant is the River Road plant of the Buffalo General Electric Co., with an installed capacity of 126,000 h. p. Niagara Lockport & Ontario Power Co. has a steam plant at Lyons, N. Y., with an installed capacity of 40,000 h. p., and 2 smaller plants; a modern steam plant of 6,000 h. p. at Olean, N. Y., and a gas plant of about 1,500 h. p. at Bradford, Pa.

In addition to these sources of power, interconnections have been made with the Power Corporation of New York system, which operates hydro-electric and steam plants in northern and central New York and supplies cities, villages and towns in and through several counties in that section with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns in and through several counties in that section; with the Mohawk-Hudson Power system, which owns and operates both hydro-electric and steam plants in central and eastern New York, and supplies cities, villages and towns from central New York east to the eastern boundary of the State (the Mohawk-Hudson Power system also is interconnected with the New England Power system); with the Penn Public Service system, which owns and operates hydro-electric and steam plants in the States of Pennsylvania and Maryland, and with the system of the Hydro-Electric Power Commission of Ontario, at Niagara Falls, Ont.

As a result of these interconnections, a super-service system unites generating capacities aggregating considerably more than 2,000,000 h. p. Co.'s system embraces 779 miles of transmission lines on steel towers and 858 miles of lines on wooden poles. As of Dec. 31 1926, meters, 233,078.

#### FRONTIER CORP.

**ORGANIZATION, &c.**—Formed in New York Aug. 26 1921 by the General Electric Co., Aluminum Co. of America, and the Du Pont interests, for the purpose of developing hydro-electric energy in the International section of the St. Lawrence River, between Lake Ontario on the west and the point where the river crosses the International boundary on the east. The potential power possibilities of this section of the river are about 2,400,000 h.p., which will be developed in either one or two stages, probably the former. If one dam only is built, it will be located at the foot of the Long Sault Rapids with a fall of 83 feet. Half of the power will belong to the Province of Ontario and the other half to the State of New York.

Applications for licenses have been made by the St. Lawrence Valley Power Corp. and Louisville Power Corp., subsidiaries of the Frontier Corp., to the New York State Water Power Commission and Federal Power Commission. After full governmental authority to proceed has been secured, it will require about five years to complete dam and power houses at an estimated cost of \$238,000,000.

Trunk transmission lines of high voltage will be constructed from the St. Lawrence to connections with the lines of the large distributing systems in the State, all of which are now inter-connected in such a way as to practically insure State-wide distribution of St. Lawrence power.

A nucleus for corp.'s distribution systems is provided by the properties controlled by the Northeastern Power Corp., which is linked with the General Electric interests. Northeastern Power Corp. also is linked by stock ownership with the New England Power Association, and the two companies therefore control a system which stretches from northwestern New York to Massachusetts. The Mohawk Hudson Power Corp. is part of the Northeastern system and controls important up-State utilities. See also article under heading "Mellon Interests in Utilities Spread," on page 3037, of the "Chronicle" of May 29 1926. In Dec. 1926, however, corp. withdrew its application to New York State Water Power Commission for the hydro-electric development of the St. Lawrence River. See for details V. 124, p. 111.

**OFFICERS.**—Pres. & Treas., George T. Bishop; Sec., H. B. Abels. Office: 1758 Union Trust Bldg., Cleveland, Ohio.—V. 123, p. 3209; V. 124, p. 111.

\* "Outside assets" in Dec. 1917, V. 103, p. 2365.

**New Lines.**—On Mar. 19 1913 an agreement was signed between the city and this company (V. 94, p. 1507, 1565; V. 96, p. 62, 359, 1701) and the B.R.T. Co. (now B. M. T.), providing for the establishment of comprehensive dual systems of rapid transit serving all boroughs.

The official statement to the N. Y. Stock Exchange, dated June 30 1913, was published in "Chronicle" of Aug. 16 1913, pages 450 to 455, giving full particulars as to new contracts, bonds, &c. See also V. 97, p. 744, 1024.

### Subway Leases, New and Old, to Run 49 Years—Re-Capture.

The lease by the city to the co. of the new subways is for 49 years from Jan. 1 1917, but if their completion should be delayed through no fault of the co., the beginning of the term will be correspondingly postponed (date now set Jan. 1 1919); subject, however, to city's right of recapture after 10 years.

The leases of the original subways as modified expire contemporaneously with the lease of the new subways, but are not subject to termination by notice except as portions thereof may be taken over in substitution for the 7th Ave. branch or the Lexington Ave. branch of the new subways in order to complete a direct longitudinal line, either upon the East Side or upon the West Side of the city. As to the old contracts, Nos. 1 and 2, see "Railway & Industrial" Supplement of Feb. 1913 and V. 96, p. 1701.

The authorizations and licenses for the elevated railway extensions and additional tracks are for 85 years from the beginning of operation, and are respectively subject to the right of the city to purchase and take the property at any time after 10 years upon payment therefor.

Under the pooling agreement with the city which became effective Jan. 1 1919, all the receipts of the old and new lines of Interborough system, with the exception of the old elevated lines, will be placed in a common pool, from which will be deducted taxes, maintenance, oper. expenses, depreciation, the co.'s preferential and interest and sinking fund payments upon the city's and the co.'s investments in the new lines. After these charges are paid the amount of revenue remaining will be divided equally between the city and the company. V. 107, p. 501, 401.

Interest on the securities issued to construct and equip the new lines was a charge to construction until, and to the extent of, the completion and commencement of operation of the new lines. Under its contracts with the city the co. was reported in Jan. 1919 to be entitled to take, on basis of convertible note issue of 1918, out of the revenues of the I. R. T. system, an annual sum which, with \$500,000 other corporate income, will provide \$17,620,072, as compared with \$13,101,255 required for interest and sinking fund on all bonds and notes outstanding in the hands of the public; but in Jan. 1919 not over \$9,700,000 of the sum last named was expected to be a charge against the earnings of the year 1919, owing to the delay in putting the new lines in operation. See below and V. 108, p. 171, 268; V. 107, p. 1100.

The amounts payable to the co. out of the revenues of its subways (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city becomes entitled to the int. on its investment under its 1913 subway contract with the co. The amounts payable to the co. out of the revenues of its elevated lines (compound int. being allowable on any deficiency in any fiscal year) are to be paid before the city shares any profit from the operation of the elevated lines.

When the profits from the operation of the subway system exceed the amount of the co.'s annual prior claim, and after all accumulated deductions (with int. thereon) shall have been made up to the co., the profits then remaining are to go to the city until the percentage of the city's return upon its investment shall equal the percentage of the return received by the co.; and thereafter excess profits will be divided equally between the city and the co. The profits from the elevated system and connections, after all the co.'s accumulations shall have been made up, are to be divided equally between the city and the co.

### Readjustment Plan, Dated Aug 1 1922.

The plan of readjustment for the Manhattan Elevated and Interborough properties, outlined below, was accepted by the security holders concerned. (V. 115, p. 1730.) The main purpose of the plan was to provide for the capital requirements and arrears of the Interborough system, estimated at about \$30,000,000, and to readjust the Manhattan dividend rental. Under the plan the Interborough Consolidated Corp., which is the successor to the Interborough Metropolitan Co. as the holding co. controlling the Interborough Rapid Transit Co., will disappear with its \$45,740,500 of pref. stock and its 932,626 no par shares of com. stock and its \$63,808,000 of coll. trust 4½% bonds. In place of these securities the \$35,000,000 of Interboro. Rapid Transit Co. stock will remain. V. 114, p. 2011; V. 115, p. 2159.

### Summary of the Main Features of the Plan.

**Manhattan Rental.**—The Manhattan rental is to be payable out of the earnings of the combined systems after the payment of interest charges and is to be at the following rates:

- For the fiscal year beginning July 1 1922, 3%.
- For the fiscal year beginning July 1 1923, 4%.
- For the fiscal year beginning July 1 1924, and subsequent years, 5%.

These preferential payments are to be cumulative and must be made to the Manhattan stockholders if the earnings exist.

In case 4% divs. should be paid in any year upon Interborough stock, any further distribution of divs. for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%.

**Interborough Dividends Limited to 7%.**—No divs. shall be paid upon the capital stock of the Interborough Co. (a) before July 1 1926, nor (b) out of income accruing prior to that date, nor (c) unless and until the foregoing Manhattan cumulative div. rental and all taxes upon the Manhattan property and all div. rentals accruing to and incl. July 1 1922 shall have been paid in full. The divs. to be paid upon the stock of the Interborough Co. in any year prior to July 1 1926 shall not exceed 7%.

After July 1 1926 no div. shall be paid in excess of 7% per annum, and no other distribution of corporate assets shall be made if such payments reduce the aggregate net value of the assets of the Interborough Co. below \$35,000,000 unless such div. or distribution shall have received the consent of the Manhattan directors.

**Existing Current Obligations and Arrears to be Paid.**—Provision is to be made for the payment of all existing current obligations, including the arrears of rentals at the present rate and taxes under the Manhattan lease down to July 1 1922, the beginning of the next fiscal year.

**Maintenance and Improvement of Manhattan Property.**—Provision is to be made to insure the application of a proper amount to the maintenance and improvement of the Manhattan property, including the installation of turnstiles at stations and pneumatic control doors for cars.

**Sinking Fund of Interborough Bonds Waived Five Years.**—The interest payments on the Interborough 5% first mtge. bonds and on the secured notes is to continue uninterrupted, but in order to increase the amounts available for the improvement of the Interborough properties and other capital purposes, the sinking fund in respect of the Interborough 5% mortgage bonds is to be waived for a five-year period.

**Notes.**—90% of the Interborough secured notes due Sept. 1 1922 were renewed for 10 years, the remaining 10% being paid in cash. A new issue of \$15,000,000 6% notes was auth., of which \$10,500,000 were issued to provide for capital expenditures.

To carry out provisions of the plan a voting trust was established. Voting trustees are: Frank Hedley, Guy E. Tripp and Frank L. Polk. The voting trust is to continue in force until Oct. 1 1927.

For further details of plan, compare V. 114, p. 2011, 2240.

**Bonds.**—The "First and Refunding Mortgage" of 1913 is limited to \$300,000,000, of which \$170,000,000 was underwritten early in 1913.

In April 1927 \$162,700,000 was outstanding and a further \$58,944,000 had been pledged to secure the secured convertible 7% notes due in 1932.

Listing, V. 108, p. 2626; V. 124, p. 645.

The bonds became, Nov. 1 1913, a first lien on all leasehold and other rights of the company in (a) the existing subways and elevated lines (including power houses, sub-stations, equipment, real estate, &c., owned directly by the Interborough Co. subject to the city's rights under the lease) and (b) in the new subway and elevated line extensions and in the authorized additional tracks on the present elevated lines. Cumulative sinking fund of not less than 1% yearly of amount out began July 1918, and is to retire entire issue. Sinking fund waived for 5 years (see readjustment plan above).

In case the city shall exercise its right of re-capture of any of the new lines, after 10 years from commencement of operation, the moneys so payable will retire all outstanding bonds issued for constructing and equipping same. Int. payable at Treasurer's office, 165 B'way, N. Y. City.

**Secured Convertible Notes.**—90% of the \$38,144,000 Interborough secured notes, maturing Sept. 1 1922, were extended as per plan for a period of ten years, the remaining 10% being paid in cash. The ext. notes are secured by deposit of \$58,944,000 1st & ref. mtge. bonds of 1906 and are convertible into 1st & ref. 5s at 80 during the first 3 years, at 85 during the second 3 years, and at 90 during the last 4 years. Red. in whole or in part at par and int. and a premium of ¼ of 1% for each unexpired semi-annual period of the ten-year term. Int. at office of J. P. Morgan & Co., N. Y.

**Ten-Year 6% Notes.**—Until the payment of these notes the co. may not sell or issue any 1st & ref. mtge. bonds, except upon the conversion of its secured conv. gold notes (or renewals or extensions thereof) or for the purpose of paying the principal of these 10-year 6% gold notes. Red. at par and int. plus a premium of ¼ of 1% for each unexpired semi-annual interest period of the ten-year term. Int. at Treasurer's office, 165 B'way, N. Y. City.

In addition to the notes shown in table above, there were outstanding on June 30 1926 three-year secured convertible 7% gold notes, dated Sept. 1 1918, as follows: Extended at 8%, \$9,700; not extended, \$6,000.

6% Equipment Trust Certificates of 1923 are due \$280,000 annually. Int. payable at office of J. P. Morgan & Co., N. Y.

6½% Equipment Trust Certificates Series B are due \$450,000 each Jan. 1 to and incl. Jan. 1 1929.

6% Equipment Trust Certificates, Series "C," are due \$570,000 each Nov. 1 to and including Nov. 1 1929.

In July 1918 reduced div. to 2½% quar. (10% p. a.) and in Oct. 1918 and Jan. 1919 paid at that rate. In Feb. 1919 failed to declare any dividend for April 1. See V. 108, p. 878.

A from the commencement of operations under Contract No. 3 and the related certificates, respectively, it has been the practice to include in all reports of operating expenses 14% of the gross operating revenue upon the Manhattan Division and 17% on the Subway Division to cover maintenance and depreciation. These are the percentages fixed for the first year of operation in each cash. Negotiations have been pending between the company and the Commission ever since the end of the first year to determine what.

If any, changes in these percentages should be made for subsequent years. Prior to July 1 1923 the amount expended in excess of 14% upon the Manhattan Division was approximately offset by the amount under 17% expended upon the Subway Division. But during the current year there have been expenditures upon both divisions considerably in excess of the tentative percentages provided for the first year. The net expenditures for maintenance in excess of the amounts therefor included in "operating expenses" are shown hereinabove as "maintenance expenditures in excess of contractual provisions."

b Under the plan of readjustment, payment of the si, an ifund is deferred until July 1 1926 on condition that, prior to that date, the amount equal to the deferred sinking fund be expended on additions or improvements to the property.

#### MANHATTAN RY. (ELEVATED).

ORGANIZATION.—Lease.—The Interborough Rapid Transit Co. leases the road for 999 years from 1875. Divs. were originally guaranteed at rate of 7% per ann., but under terms of readjustment plan rental was reduced as follows: For fiscal year beginning July 1 1922, 3%; for fiscal year beginning July 1 1923, 4%; for fiscal year beginning July 1 1924 and subsequent years, 5%. These preferential divs. are payable out of the earnings of the combined Interborough R. T. and Manhattan Ry. systems after the payment of interest charges, and are to be cumulative. In case 4% divs. should be paid in any year upon I. R. T. stock, any further distribution for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total divs. upon the Manhattan stock for that year have reached 7%. See Interborough Rapid Transit Co. above.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns elevated railroads in the boroughs of Manhattan and the Bronx, N. Y. City, main line and branches, 37.18 miles, with 91.13 miles of 2d, 3d, 4th and 5th track, sidings, &c.; total track, 128.31 miles; 3d rail electric. The 2d, 3d and 9th Ave. lines, under agreement with the city made in March 1913, have been largely 3-tracked, the Interborough Rapid Transit Co. supplying the funds.

Decision.—Supreme Court Justice Ford, in a decision handed down Feb. 18 1924 in a Manhattan stockholder's suit to recover from the Interborough company back dividends on the Manhattan guaranteed stock, held that the Interborough company must pay the 7% dividend rental to stockholders who declined to participate in the Interborough-Manhattan readjustment plan. V. 118, p. 794. A similar decision was handed down by Justice Mulligan in May 1924. V. 118, p. 2437. Affirmed by Appellate Division of N. Y. Supreme Court April 3 1925. Affirmed by Court of Appeals. It is estimated that only 5% of the stockholders of the Manhattan Co. are affected.

On April 10 1926 court awards company and the Interborough Rapid Transit Co. \$975,438 for removal of 42d Street spur. For details see V. 122, p. 2191.

Payment of All Accruals on Non-Assenting Manhattan Ry. Stock Begins Oct. 1 1925. See under "Interborough Rapid Transit Co." on a previous page (V. 121, p. 1461). V. 120, p. 1747; V. 121, p. 329, 586. See also under "Dividends."

V. 103, p. 1118; V. 51, p. 248; V. 87, p. 285.

On April 1 1925 paid 1¼%; on July 1, 1¼% plus 1¼%, being the payment deferred in Jan. 1925. V. 120, p. 2943. On Oct. 1 1925 75c. quar. rental div. per share on stock of record Sept. 22 was paid to stockholders of the Manhattan Ry., who subscribed to the readjustment plan. See for explanation of this dividend amount V. 121, p. 1462. On Jan. 1 1926 the Interborough Rapid Transit Co. paid 27c. a share (representing the amount due under the readjustment plan, based on operating results for the quarter ended Sept. 30 1925) on account of the quar. rental div. to stockholders of the Manh. Ry. Co. who subscribed to the readjustment plan of 1922. Holders who did not assent to that plan, were receiving their \$28 a share in accumulated dividends which were declared payable beginning Oct. 1 1925. It was said that the Interb. R. T. Co. did not intend to withhold payment until forced in each individual case by court action. V. 121, p. 2874. Non-assenting 7% stockholders were paid a regular quarterly rental of \$1.75 per share in Jan. and also in April 1926. In July 1926, \$1.75; Oct. 1926, \$1.75 and quar. since. V. 121, p. 3003. In April 1926, \$1.25 was paid as the regular quar. div. rental to assenting stockholders. In July 1926 the regular quar. div. of \$1.25 was paid plus 50c. representing deferred rental on account of insufficient earnings on Oct. 1 1925 and 98c. covering similarly deferred rental on Jan. 1 1926. V. 122, p. 3341. In Oct. 1926, \$1.25. This latter payment covered the 3 mos. end, June 30 1926. As the earnings for the 3 mos. end, Sept. 30 1926 were insufficient the Interborough Rapid Transit Co. deferred the installment due Jan. 1 1927. V. 123, p. 3038. In April 1927 paid \$1.25 on guar. stock, subject to plan of readjustment. V. 124, p. 1360.

#### BROOKLYN CITY RR. CO.

ORGANIZATION.—Incorp. in New York in 1853. Was leased on Feb. 14 1893 to the Brooklyn Heights RR. Co. for 999 years, the lease guaranteeing all fixed charges, organization expenses, taxes and 10% dividend (Oct. 1919 and subsequent dividends not paid—see B. R. T. below) on \$12,000,000 of stock (par \$10). The lease was nominally to the Brooklyn Heights RR. Co., but the Brooklyn Rapid Transit Co. (now B.-M.-T.) owned entire capital stock of the Brooklyn Heights Co. The Brooklyn Heights RR. Co. was placed in the hands of a receiver July 14 1919, and in accordance with the decree of U. S. District Court, dated Oct. 16 1919, disaffirmed the lease and returned the property to the Brooklyn City RR. Co. Oct. 19 1919. In Oct. 1923 we were informed that the Brooklyn Heights Co. was being liquidated. No further information. In 1926 co. offered jointly with B.-M. T. Corp. to supply supplemental bus service in the Borough of Brooklyn.

FIELD OF OPERATIONS.—Owns 209 miles of track and operates approximately 219 miles. Has approximately 991 motor passenger cars and 131 motor service cars. From 1923 to the fall of 1925 a total of 535 new modern type cars were placed in service. Power is purchased from B.-M. T.

Guaranty Fund.—Under the terms of the lease it was provided that a fund of \$4,000,000 should be deposited with certain trustees by the Brooklyn Heights RR. Co. as a guarantee of the performance of the terms of the lease. It was further provided that in the event of the termination of the lease by reason of any breach, default or omission, the "said guaranty fund of \$4,000,000 shall at once become the sole and absolute property of the lessor." This guaranty fund consisted of the following: \$2,000,000 Brooklyn Queens County & Suburban first mtge. 5% bonds; \$1,627,000 Brooklyn City RR. first 5s; \$125,000 Brooklyn City RR. refunding 4s; \$25,000 B. R. T. first 5s; \$250,000 B. R. T. first refunding 4s.

By agreement dated Nov. 19 1923, the Guaranty Fund controversy was adjusted as follows: \$275,000 Brooklyn City RR. ref. 4s held by the B. M. T. were substituted for the \$250,000 B. R. T. ref. 4s and \$25,000 B. R. T. 1st 5s. All the Brooklyn City RR. bonds, consisting of \$1,627,000 5s and \$400,000 4s, were delivered free and clear to the Brooklyn City RR. Co. \$2,000,000 Brooklyn Queens County & Suburban 1st mtge. 5s were delivered to the B. M. T. under a stipulation that the Brooklyn City RR. should receive a \$2,000,000 offset against any recovery on the so-called \$10,000,000 construction suit. It was further provided that if there should be no recovery on the construction suit, then Brooklyn Queens County & Suburban bonds should be returned to the Brooklyn City RR. Co. or the pro rata amount of the recovery, should it be less than \$2,000,000.

The company has no power houses of its own but has a contract with the B.-M. T. by which it is supplied with power. The company makes weekly payments of the amounts which it is estimated will be found due for power. The amounts are not fixed and vary from time to time.

The company has a claim against the B. R. T. for the demolition of the Brooklyn City power house.

Suit.—The receiver for the B. R. T. brought suit against the company to recover \$10,000,000, alleged to have been expended by the Brooklyn Heights Co. under its lease. The company in its answer denies any liability. V. 113, p. 2612.

Objections to Valuation of Transit Commission.—V. 114, p. 1285.

**New Subways and Extensions.**—An agreement was reached in May 1912 as to how the routes of the new dual subway system in lower Manhattan should be apportioned between the Interborough and Bklyn. Rapid Transit, and the Court of Appeals at Albany having on June 30 1912 affirmed the decision of Justice Blackmar (V. 94, p. 1057) holding to be constitutional the terms of the proposed contracts with the Interborough and B. R. T., formal contracts were drawn up by the P. S. Comm. and were signed on Mar. 19 1913. V. 96, p. 862. **Suit Against Bklyn. City R.R.**—The receiver for the old B. R. T. brought suit against the Bklyn. City R.R. to recover \$10,000,000 advanced to that company prior to the designation of the receivership. V. 113, p. 2612. This case is still pending.

**Suit Against City.**—In Dec. 1918 the N. Y. Municipal Ry. Corp. and the N. Y. Consolidated Ry. Co. brought suit against the city of New York and the P. S. Comm. to compel completion of the city transit system in accordance with the contract of March 19 1913. The plaintiffs alleged that, notwithstanding the elapse of 6 years since the execution of the dual contracts there remained unfinished and still to be constructed or completed 47 miles of track out of a total of 115, and 19 miles of road out of a total of 41 of the lines which the city assumed to construct by Jan. 1 1917 and which the company agreed to equip and operate. For further details see V. 107, p. 2288. In April 1922 the receiver for the N. Y. Municipal Ry. Corp. and the N. Y. Cons. Ry. Co. filed a bill of complaint in the U. S. Dist. Court to compel the carrying out of these contracts and to recover alleged damages incurred as a result of the city's alleged failure to perform its contract obligation. V. 114, p. 1764. The city has filed an answer asking the dismissal of the suit. For details see V. 114, p. 2358. Motion to dismiss suit was denied on Oct. 21 1924 by Federal Judge Knox. V. 119, p. 1951. In July 1923 B.-M. T. took over handling of suit from counsel for receiver. See V. 117, p. 322. On Jan. 3 1924 Judge Mayer granted a motion of the New York Rapid Transit Corp. to intervene in this suit. V. 118, p. 85. The city and the Transit Commission appealed to the U. S. Supreme Court from the order granted by Judge Mayer permitting the Rapid Transit Corp. to intervene, but on June 2 1924 the appeal was dismissed by the U. S. Supreme Court, which ruled that it was without jurisdiction. V. 118, p. 2823. Compare V. 118, p. 1268. See also V. 119, p. 2409, and V. 122, p. 2038; V. 123, p. 579. T. reorganization plan, for details of which see "Electric Railway" Supplement of April 28 1923. For history of N. Y. Consol. RR. and the N. Y. Municipal Ry. Corp. up to time of reorganization also see "Electric Railway" Supplement of April 28 1923. The co. as now constituted owns and operates the rapid transit lines of the B. R. T. system (now B. M. T. 1. To the company, \$3,500,000, as representing the net earnings of the previously existing railroads which went to form part of the new rapid transit system. Out of this reservation the company pays interest charges on capital investments prior to Mar. 19 1913 in the then existing railroads.
2. To the company, 6% on its new investment in construction and equipment prior to the beginning of permanent operation and thereafter interest and 1% sinking fund.
3. To the city, interest and 1% sinking fund on its investment in cost of construction.

4. Any surplus remaining, after making provision for a moderate contingent reserve fund, is to be divided equally between the company and the city. The company's preferential payments are to be cumulative.

**Increase Stock.**—In Feb. 1926 corp. applied to Transit Commission to increase its capital stock from 189,000 to 284,000 no par shares and to issue the increased number of shares in exchange for its outstanding ref. mtge. 5% s. f. gold bonds at the rate of 4 shares of stock for each \$100 of bonds. **Bonds.**—The 1st & ref. mtge. bonds will constitute a lien (ahead of the ref. mtge. and subject only to the existing underlying elevated railroad bonds on certain of the properties) on the rights existing under Contract No. 4 and allied certificates and on all the other properties of the N. Y. Rapid Transit Corp. The bonds are to be issued only for the purpose of providing (after the exhaustion of the moneys—\$5,000,000 improvement fund for future improvements already deposited—provided in the reorganization for such purpose) for the cost of additional equipment and additions and betterments for the rapid transit lines or power house properties, provided after July 1 1923 under Contract No. 4 and the allied certificates, and also for the purpose of refunding any bonds previously issued and outstanding under this mortgage and any of the existing underlying elevated railroad bonds. None of these bonds will be issued in reorganization. Pending the consummation of the proposed inclusion of the power plant properties under Contract No. 4 and (or) the allied certificates and the transfer of those properties accordingly, the reorganization committee may authorize the creation of a power plant 1st mtge. of substantially the same character as the N. Y. Rapid Transit Corp. 1st & ref. mtge. Such mortgage may be created and the bonds thereunder issued either by the new co. itself, if the title to the power plant is permitted to remain therein, or by a subsidiary co., if title to the power plants be vested in a subsidiary. None of these bonds will be issued in reorganization.

Co., affording that company entrance into the city of Brooklyn—rental, formerly a percentage of receipts, was changed in 1895 to \$60,000 yearly. V. 61, p. 828. Litigation has arisen with Long Island RR. regarding the use of Atlantic Avenue. See V. 74, p. 1139. In Oct. 1910 N. Y. #### SECOND AVENUE RR.

**Receivership.**—In Sept. 1908 Justice Bischoff in Supreme Court appointed George W. Luch separate receiver in suit by Guaranty Trust Co. to foreclose consolidated mortgage. At midnight on Nov. 12 1908 receiver took possession of the property. Charles E. Chalmers is now receiver. Div. on stock due June 1908 was defaulted. Default of int. on bonds occurred as follows: 1st (gen.) mtgs., Nov. 1 1908 (subsequently retired; V. 91, p. 1255); first consols, Aug. 1 1908; debentures, July 1 1908. A committee was formed to protect the interests of the first consol. 5% bonds. V. 87, p. 347, 1235. On Oct. 1 1910 Justice Amend in Supreme Court authorized receiver to issue \$2,500,000 receiver's certificates to be used to retire \$1,280,000 gen. consols. 5s and \$500,000 receiver's cfs. due Oct. 1 1910, and for franchise taxes, impts. and equip. V. 91, p. 946. In Jan. 1911 \$500,000 additional cfs. were authorized for impts. and equip. V. 92, p. 264. As these matured, various other issues were made from time to time. In Oct. 1913 \$3,200,000 1-year 6% receiver's cfs. were authorized to retire \$3,140,000 falling due Oct. 1 1913, which have been extended from year to year. V. 105, p. 1310; V. 107, p. 1386; V. 119, p. 457. The interest due April 1 1918 on these cfs. was deferred until May 1 1918 (V. 106, p. 1578). Oct. 1918 interest was paid when due. V. 107, p. 1386. The Oct. 1 1919 int. was not paid when due. V. 109, p. 1462.

Anticipating the default in the payment of the Oct. 1 1919 int. on the \$3,140,000 6% receiver's certificates, the following committee was formed in July 1919 to protect the interests of the holders (V. 109, p. 1462, 2357):

**Committee for 6% Receiver's Certificates.**—Chairman, George E. Warren; A. A. Jackson, Geo. E. Barstow Jr., Herman D. Kountze, J. F. B. Mitchell; Sec'y, Arthur W. Hutchins, 60 B'way, N. Y. City. Depositories, Irving Bank-Columbia Trust Co., N. Y., and the Girard Trust Co., Phila. In Dec. 1919 \$2,787,000 (about 90%) of these cfs. had been deposited with the committee. V. 109, p. 2357.

**Foreclosure and Reorganization.**—Co.'s property was to be sold at foreclosure June 23 1927. It was proposed that the committee for the receiver's certificates buy the property, whereupon two companies were to be formed (1) a real estate corporation, to acquire co.'s car barn property at 96th & 97th Sts., First & Second Aves., N. Y. City, and (2) a railway corporation to acquire the property, rights, interests and franchises of Second Avenue RR. exclusive of above-mentioned car barn property, subject to franchise taxes. The capitalization of the real estate corporation was to be as follows: First lien bond (or bonds) secured by a first mtge. on the car barn property, not to exceed \$750,000; non-par stock, 31,400 shs. For each \$1,000 of receiver's certificates holders were to receive 10 shares no par com. stock. The railway corp. is to issue 1st lien 6% 30-year bonds, callable at 102 1/4, not to exceed the "cash requirements," which will not exceed \$750,000, and 31,400 shares no par stock. For each \$1,000 receiver's certificates holders are to receive 10 no par com. shares, in event the "cash requirements" are raised by a mortgage on the real estate. The bonds will be sold to the real estate corp. in event the consolidated mortgage bondholders do not provide the funds. If the bondholders provide the funds, the bonds are to be sold to them. For further details about this plan, see V. 123, p. 3185. See also V. 109, p. 2357; V. 113, p. 732, 1054; V. 119, p. 457; V. 112, p. 163; V. 124, p. 375.

**Injunction Against Buses.**—On July 22 1925 an injunction was granted to Charles G. Chalmers, receiver, restraining city officials from operating bus routes in territory served by the company. V. 121, p. 461.

**ORGANIZATION.**—Chartered Jan. 21 1853. Was formerly leased to Metropolitan Street Ry. V. 66, p. 185.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—An underground electric road. Track operated, 23.90 miles.

### BINGHAMTON RAILWAY CO

History of Previous and Present Receivership.—The receivership which had been in effect since Oct. 8 1918 was lifted Feb. 23 1924 by order of the Court and the receiver discharged. The liabilities which brought about the receivership were liquidated through the issue of gen. & ref. 6% bonds, due Jan. 1, 1939, secured by a mortgage with lien subordinate to existing mortgages.

A reorganization committee (Harry Evers, Chairman; Walter H. Morse and J. H. Pardee; Sec., H. C. Hasbrouck, 61 Broadway, N. Y. City)

at the request of co. officials and certain security holders, put out under date of June 6 1925 a Reorganization Plan, which, however, was opposed by certain holders of the 1st consol. 5% bonds who organized a bondholders' protective committee. In Aug. 1926 practically all the bonds that had been deposited with the protective committee were purchased by other security holders who turned them over to the reorganization committee. The bondholders' protective committee has since ceased to function V. 121, p. 1567.

The principal amounts (\$147,000) of Binghamton, Lestershire & Union 1st mtge. 5% bonds, due June 1 1925 and Binghamton RR. 1st mtge. 5% bonds due July 1 1923 (\$452,000), are in default. On Sept. 1 1925 William H. Riley and E. M. Walker were appointed equity receivers. V. 121, p. 1675.

Principal franchises granted by special Acts of Legislature and are perpetual and practically exclusive. Up to 1924 co. had been controlled by Scranton Montrose & Binghamton RR. Co.

## Receivership of Steinway Railway.

On April 27 1922 Justice Callaghan in the Queens County Supreme Court appointed S. W. Huff and R. C. Lee receivers for Steinway Ry. upon application of Guaranty Trust Co., trustee under the first mortgage of the Steinway Ry., interest on which was defaulted. The order provided that the receiver take over only the property which originally belonged to the Steinway Co. (V. 114, p. 1891.) The receivers put into effect a separate 5-cent fare on that part of the system against the orders of the Transit Commission, but the action of the receivers was sustained by the Court. V. 114, p. 2116, 2360.

In view of the default in the payment of the int. due Jan. 1 1922 on the Steinway Ry. 1st M. 6s and the then impending default of prin. & int. due July 1 1922, two committees were formed to protect interests of holders of these bonds. One committee was headed by H. B. Thorne (V. 113, p. 2819) and the other by Geo. W. Davison (V. 114, p. 80). The first named committee arranged to pay the Jan. 1 1922 coupon. V. 114, p. 80. Later the two committees were consolidated. The committee resulting from the consolidation is composed of:

**PUBLIC SERVICE ELECTRIC & GAS COMPANY.**

All the com. stock is owned by the Public Service Corp. of N. J. **ORGANIZATION.**—Formed in 1924 as a consolidation of the Public Service Electric Co., Public Service Gas Co. and United Electric Co. of N. J. as per plan outlined in V. 118, p. 1268, 2705. It is planned eventually to merge into the consolidated co. all stock-owned electric and gas companies and to vest in it the ownership of leasehold estates which comprise the balance of the electric and gas systems. It is further planned to offer to the stockholders of certain gas and electric cos. leased the opportunity to exchange their stocks for other securities, so that, eventually, these cos.

also may be consolidated with Public Service Elec. & Gas Co. These consolidations are not an essential part of the plan, however, as the leases in question extend in practically all cases for terms upwards of 900 years. In accordance with these plans, however, 7 companies previously operated under lease were merged into the co. on Dec. 3 1924. Notes due June 3 1925 and bearing interest at 6% were given by Public Service Electric & Gas Co. in exchange for the stock of the merging companies as follows:

	Shares.	Par Value.	Amt. of Notes.
Burlington Electric Light & Power Co.	351	\$17,550	\$17,550
Oldmans Elec. Lt., Ht. & Power Co.	1,656	41,400	41,400

Weehawken Contracting Co., common	1,400	70,000	41,050
do do do preferred	821	41,050	

The entire capital stocks of these companies, with the exception of 8 shares of the stock of Princeton Light, Heat & Power Co., were owned by Public Service Corp. of N. J. V. 119, p. 3011. For histories as separate organizations of Public Service Elec. Co., Public Service Gas Co., United Electric Co. of N. J., and above-mentioned leased cos. merged, see "Electric Railway" Supplement of April 26 1924.

**Merger of Underlying Companies.**—In January 1927 co. undertook to merge with it 9 underlying companies heretofore operated under long term leases through exchange of securities of underlying cos. against its own securities or those of Public Service Corp. of N. J. Announcement was also made of plan to consolidate with the Public Service Elec. Power Co., which owns the Kearny electric station. Leased cos. involved in the merger are: Essex & Hudson Gas Co., Hudson County Gas Co., South Jersey Gas Elec. & Trac. Co., Gas & Elec. Co. of Bergen County, New Brunswick Lt., Ht. & Pr. Co., Newark Consolidated Gas, Paterson & Passaic Gas & Elec. Co., Somerset Union & Middlesex Ltg. Co. and Ridgewood Gas Co. For history of these cos. see "Public Utility Compendium" of Oct. 30 1926. As of March 12 1927 co. had acquired control of Essex & Hudson Gas Co., Hudson County Gas Co., New Brunswick Lt., Ht. & Pr. Co., Paterson & Passaic Gas & Elec. Co. and Somerset Union & Middlesex Ltg. Co. For full details regarding plan of merger and offer of exchange to security holders of leased cos. see V. 124, p. 237 and 374; also p. 923, 1667.

Elec. Co. or Susquehanna El. Co., provided total net rentals under all leases (incl. leases on additions) pledged under the mtge., so long as any 5½% series due 1972 bonds are outstanding, are at an annual rate of not less than 7% per annum on the actual investment, unless Governmental authorities require changes in the rate of basis of calculation of such rentals. May also be issued for refunding outstanding 1st mtge. bonds, par for par, not including, so long as any 5½% series due 1972 are outstanding, any bonds retired by the sinking fund provided for such series; also to provide money to be deposited with trustee for any of the foregoing purposes.

So long as any 5½% series due 1972 bonds are outstanding, no bonds of any other series may be issued unless they mature after Feb. 1 1972, or a semi-annual sinking fund sufficient to retire all such bonds at or before maturity is provided.

Modification of the provision of the mortgage may be made with the written consent of trustee and of holders of 85% of outstanding bonds, provided that no such change shall, without the holders' consent, alter the amount, time, place or medium of payment of principal or interest, redemption prices or dates of any outstanding bonds, or, so long as any bonds of 5½% series due 1972 are outstanding, reduce the amount of the sinking fund payments established in respect of any series.

A sinking fund is to retire by maturity all of the \$38,000,000 bonds of the 5½% series due 1972. It commences Feb. 1 1930 and semi-annually thereafter retirements are to be made at a graduated rate increasing in substantial proportion to the interest charges on the retired bonds. Co. may tender bonds of this series at not exceeding the redemption price. Any cash payments are to be used to call by lot bonds of this series at the redemption price.

5½% Series due 1972 are red. on any interest date, whole or part, and for sinking fund on 30 days' notice, at 106 on or before Feb. 1 1941; at 105½ on or before Feb. 1 1951; at 105 on or before Feb. 1 1961; and at 104½ less, commencing Aug. 1 1961, with a like additional reduction commencing Aug. 1 of each year thereafter, the bonds to be callable at par on and after Aug. 1 1970; in each case with interest, Penn. or Conn. 4-mill, Maryland 4½-mill or Mass. 3 3-10-mill taxes refunded. #### STANDARD POWER & LIGHT CORP. (Del.)

Control.—Standard Gas & Elec. Co. In April 1926 had acquired 80% voting control of Standard Pow. & Light Corp. At that time Standard Gas & Elec. Co. offered its 8% cum. pref. or its common shares in exchange for the 5% cum. pref. stock of United Rys. Investment Co., the 7% cum. pref. stock (incl. voting trust cts.) of Pittsburgh Utilities Corp., the 7% prior pref. of California Ry. & Power Co. and the com. stock of Philadelphia Co. outstanding with the public. Standard Power & Light Co. in order to acquire the securities thus exchanged, as well as other assets, and to defray expenses of financing incident to the transactions, issued long-term debentures and pref. stock to Standard Gas & Electric Co.

Standard Power & Light Corp. now owns directly over 94% of the com. stock of Philadelphia Co., which controls a comprehensive public utility system furnishing electric light and power, natural gas, street railway and other utility services in Pittsburgh and surrounding territory. The corporation also controls approximately a 40% stock interest in the Market St. Ry. System in the City of San Francisco. Additional assets acquired by the corp. are a group of natural gas producing and distributing properties in Ohio known as Muskingum Gas Producing Corp., The National Oil & Gas Co., the Ohio Valleys Public Utilities Co. and Ohio Company; and cash and current assets of companies dissolved, as well as interests in further cash and current assets of other companies. There remain unissued the shares of partic. pref. stock of the corp. originally issuable for the purpose of acquiring certain small holdings still outstanding in the hands of the public.

The former principal holding company of the properties above mentioned, namely United Railways Investment Co., as well as a minor holding company, Maine Securities Co., has been dissolved. While steps may be taken for the dissolution of one or more other subsidiary companies, this is not essential, as none of them has any interest in or control over Philadelphia Company common stock, the principal asset of the corporation.

In addition, the corp. assumed \$10,000,000 2-year 5% first lien gold notes of Pittsburgh Utilities Corp., due April 15 1928, which were refunded in the financing of the Standard Power & Light Corp. in Feb. 1927.

ORGANIZATION.—Organized in 1925 and incorporated in Delaware on June 20 1925, as successor, by exchange of stocks, to a company of the same name incorp. in Maryland Oct. 29 1924. In July 1925 the co. acquired a majority of the voting shares of Pittsburgh Utilities Corp., which controls the utilities supplying all the electric power and gas and street railway

transportation to Pittsburgh and surroundings. Controls approx. 40% stock interest in Market Street Ry. system in San Francisco. See V. 121, p. 2402. "Market Street Ry."

**CHARACTER OF BUSINESS.**—Organized to conduct a public utility business, incl. the acquisition and operation, directly or through subs., of public utility properties, the supervision of the management, development, operation and engineering of such properties, and the purchase for the controlling and other interests in public utility companies.

### PHILADELPHIA COMPANY.

**Control.**—Controlled by Standard Power & Light Corp., which in turn is controlled by Standard Gas & Electric Co.

**Offer by Standard Gas & Electric Co.**—On April 6 1926 Standard Gas & Electric Co. offered to common stockholders Phila Co. 12 5 shares common stock Stand. Pow. & Lt. Co. for each common share of Phila. Co. See V. 122, p. 2042. The exchange had to be made on or before May 31 1926.

**ORGANIZATION.**—Organized on May 24 1884, and was originally a natural gas company. Operates under special Act of the Legislature of Pennsylvania (confering many valuable rights and privileges) granted to its predecessor, the Empire Co., in March 1871. Franchises of the company and its subsidiaries, with a few minor exceptions, are perpetual or for 999 years.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—The Philadelphia Co. is a holding company which controls through stock ownership and leases public utility companies whose business may be classed under the following heads:

(1) **Natural Gas and Oil.**—Philadelphia Co., through stock ownership, controls a number of companies which supply nearly all the natural gas consumed in the city of Pittsburgh and the manufacturing towns lying along the Monongahela and Allegheny rivers. These companies control by lease or own in fee over 1,000,000 acres of gas and oil lands in West Virginia and Western Pennsylvania. V. 123, p. 2655. In 1913 the Pittsburgh & West Virginia Gas Co. purchased the Monongahela Natural Gas Co. by the issue of \$1,500,000 collateral trust notes. Annual send-out of gas 34,641,832,000 cu. ft. and 169,623 gas customers. The Ohio gas producing and distributing properties serves 1,511 customers with annual send-out of 2,157,795,000 cu. ft. The principal natural gas companies controlled are:

The Philadelphia Co. of West Va., Pittsburgh & West Virginia Gas Co., Equitable Gas Company, Philadelphia Oil Co.

During 1926 these companies sold 28,524,999,000 cu. ft. of gas and produced 99,550 bbls. of oil. On Dec. 31 1926 owned 1,782 gas wells and 3,763 miles of pipe. Also owned or controlled 176 oil wells.

(2) **Electric Light and Power.**—The Philadelphia Co. controls through stock ownership the Duquesne Light Co., which forms the electric light and power division. See statement on a subsequent page. Company has installed steam electrical generating capacity of 427,594 h.p., 19,567 miles of transmission and distribution lines and connected load of 559,404 k.w.; annual electrical output, 1,307,084,730 k.w. hrs. and electrical customers, 262,535.

(3) **Street Railways.**—These comprise about 633 miles of track and have an average of 1,136 cars and 30 motor coaches in daily operation, all operated (as a matter of convenience and economy) by the Pittsburgh Railways Co. (except the Beaver Valley Traction Co. and the Pittsburgh & Beaver Street Ry. Co., which are operated separately).

The Phila. Co. in Jan. 1908 offered to guarantee 4% per ann. from Aug. 1 1907 on the \$2,000,000 pref. stock of Consol. Gas Co. (entitled to 6% cum.), provided additional earnings be divided equally between the two classes of stock, but pref. not to receive more than 6% in any event. Holders of 75% of the \$2,000,000 pref. stock having agreed to the proposition, the plan was adopted. V. 86, p. 54, 605.

#### STREET RAILWAYS.

##### 1. PITTSBURGH RAILWAYS CO.

Receivership Terminated.—On Jan. 20 1924 Federal Judge Thompson at Pittsburgh signed a decree ordering a return of the properties of the company to the owners and lifting the receivership, which had been in effect since April 23 1918, at midnight Jan. 31 1924. V. 118, p. 552. Compare V. 118, p. 432; V. 117, p. 2139.

Proposed Reorganization Plan.—A plan for the reorganization of the system embodied in an agreement proposed to be executed by the City of Pittsburgh, the Philadelphia Co. and the Pittsburgh Rys. Co., was presented to the Pittsburgh City Council July 25 1921. The plan contemplates the reorganization of the co. or the formation of a new co. to take over all its assets. The new co. would be limited to \$62,500,000 in the issuance of securities in substitution of securities now outstanding amounting to \$156,000,000. An annual return of 6% for 10 years is allowed on the new capitalization, which is the value of the railways properties as fixed by the P. S. Comm. (see below under "Valuation"). The city is given a voice in the control of the co. The proposed plan was printed and copies distributed by the Municipal Law Dept. of the City of Pittsburgh. For full details of plan see V. 113, p. 533, 731. Nineteen boards of trade, chiefly outlying districts entered into a joint protest against the proposed plan. V. 114, p. 1288; V. 113, p. 1252. The above plan was approved by the Pittsburgh City Council, with certain amendments (see V. 113, p. 2721), and signed by the Mayor and A. W. Thompson, Pres. of the co., in Dec. 1921 (V. 113, p. 2721). On Feb. 14 1922 the Penna. P. S. Comm. approved the plan. V. 114, p. 855, 1288; V. 115, p. 870, 2268, 2378, 2686; V. 116, p. 1412, 2516; V. 117, p. 1018, 1664, 1778; V. 118, p. 1666; V. 119, p. 1845. In July 1926 it was announced that a general refunding mortgage bond issue was to be floated to retire all the outstanding mortgage bonds (about \$11,575,000) of the component companies. V. 123, p. 456.

Default.—Subsequent Payments.—The company failed to pay the Jan. 1 1918 interest on the bonds of a number of subsidiaries and the directors of the Philadelphia Co., which was already a creditor of the Railways Co. for a large amount, refused to make it further loans. All the Jan. 1 1918 coupons, except on the United Traction 5s, were paid in March 1918. V. 106, p. 930, 1232. Coupons on the United Trac. 5s have since been paid from time to time. V. 113, p. 2722; V. 114, p. 80.

Holders of \$343,000 Pittsburgh & West End Passenger Ry. 1st Mtge. 5s due July 1 1922 were asked to convert their holdings into West End Traction gen. mtge. 5s, due Jan. 1 1938. For details see V. 115, p. 183. Up to Jan. 1 1927 \$30,000 had been so converted, balance of \$313,000 being paid int. at the rate of 5%. Compare V. 117, p. 1993.

Claims for Rentals.—See V. 115, p. 760.

Valuation.—In March 1918 the Public Service Commission appointed a committee to ascertain the physical valuation of the co.'s properties and to recommend fare rates which will yield it a fair return on its investment. In Aug. 1918, under orders from the P. S. Comm., the receivers appointed a board of three (A. J. Kelly, Henry P. Haas and J. W. Cree) to make the valuation. V. 107, p. 697. According to the report to the P. S. Comm. in Aug. 1919, physical value of the co. in the opinion of engineers for the city is \$48,000,000, and in the opinion of engineers for the co. either \$60,889,804 or \$70,120,804. V. 109, p. 776, 1367. In March 1920 the P. S. Comm. fixed \$62,500,000 as the value of the co.'s property, this being a compromise between the above mentioned valuations. V. 110, p. 1290. The city, however, carried an appeal to the Superior Court of Penna., but this was withdrawn by agreement.

ORGANIZATION.—This was formerly the Southern Traction Co., but in accordance with the authority vested in it by the terms of its charter, the directors of the Southern Traction Co. on Dec. 30 1901 voted to change the name of the company to the Pittsburgh Rys. Co. The Philadelphia Co. had previously acquired all the stock, com. and pref., of the Southern Traction, in accordance with the terms in V. 73, p. 1112.

The Southern Traction Co. was chartered in 1900 to take over, extend and operate the West End Traction lines, which were purchased in Aug. 1900 for \$4,500,000.

Leases the Pittsburgh & Castle Shannon RR. for 99 years, rental being \$15,000 per annum. See V. 81, p. 778.

**Stock.**—The cum. pref. stock is red. at \$110. In July 1924 the Guaranty Co. of N. Y., and Brown Bros. & Co. sold a block of 25,000 shares cum. pref. (purchased from the Lehigh Power Securities Corp.) at \$100 and divs. V. 119, p. 463.

**Bonds.**—For description of 1st & ref. mtge. bonds of the Pennsylvania Power & Light Co. see V. 114, p. 659, 751, for Series "A"; V. 115, p. 1542, for Series "B," and V. 117, p. 1672, for Series "C."

The first and refunding mortgage bonds are secured by a first mortgage lien upon a substantial portion of company's fixed property, and by a direct mortgage on the remainder, subject to \$16,310,400 divisional closed mortgage bonds outstanding in hands of the public. Further by pledge of \$1,622,200 divisional bonds.

The mortgage provides that bonds in addition to Series A may be issued for 75% of construction or acquisition subsequent to Sept. 25 1920, and only (except for refunding purposes) when net earnings for 12 out of preceding 15 months have been at least twice annual interest of outstanding underlying bonds not deposited under this mortgage plus twice (except in respect of certain additional bonds 1¼ times) annual interest of all first and refunding mortgage bonds, including new issue.

A supplemental indenture dated March 2 1925 (operative when Series A, B and C bonds have been retired or have consented thereto) charges certain restrictions and provisions in the original mortgage to permit the issuance of bonds maturing later than 1961, remove the restrictions with respect to earlier maturities than those of series outstanding, and for other purposes. There is a *renewal and improvement fund*, payable on April 1 of each year, of 5% of principal amount of all funded debt outstanding at end of preceding year, less actual expenditures for maintenance, &c. Any unused balance may be used for retirement of first and refunding mortgage bonds, any such balance of \$25,000 or more remaining after 24 months shall be so used.

Series "D" are redeemable, all or in part, on any interest date upon 30 days' notice at 105 and interest on or before Sept. 1 1928, 104 in the next 5 years, 103 in the next 5 years, 102 in the next 5 years, 101 in the next 5 years, and at 100½ thereafter prior to maturity. Interest payable without deduction of Penna. 4-mill tax. \$8,000,000 Series "D" 5s were sold in Feb. 1925 by the Guaranty Co. of N. Y., Harris, Forbes & Co., Halsey, Stuart & Co., and Brown Bros. & Co., at 95½ and interest, to yield over 5.30%. V. 120, p. 1089. In Jan. 1926 the same bankers offered \$10,000,000 additional Series D bonds at 98½ and interest, to yield 5.10%. V. 122, p. 348, 1170.

**Stock.**—Of the outstanding common stock, 23,537 shares are deposited under a voting trust extending to 1928 and is not entitled to receive dividends prior to expiration of the voting trust. V. 121, p. 2274. In 1926 the common stock was changed from \$100 par to no par; no further particulars available.

A plan for creation of \$3,000,000 (par \$100) prior preference stock having priority to the present pref. stock and 25,000 shares of junior preference stock of \$1 par value to take precedence over present class A and B common stock and carrying the same voting power as class A and class B common shares, was opposed by certain stockholders at a meeting held on Jan. 27 1927. The amendment was passed, but stockholders adopted resolutions that the 25,000 shares of \$1 par value voting stock should not be issued within 3 years without specific authority from the shareholders, and resolutions requesting the directors to take steps to amend the charter by eliminating the 25,000 \$1 shares entirely (the purpose of whose issuance was believed to be to perpetuate control in the present management when the voting trust expires in 1928). Stockholders also requested information with reference to stock voted to officers, alleged to be \$1,000,000 par value, with reference to dividends and as to disappearance of Public Lt. & Pow. Co. stock from company's balance sheet. See V. 124, p. 793.

Comm. requiring the underlying companies to file answers to averments made by the city and two local business men's associations with regard to rentals of the underlying companies. V. 111, p. 2521; V. 112, p. 163. The city, the P. S. Comm. and business associations appealed, and on July 1 1921 the Penna. Supreme Court reversed the decision of the Superior Court but only on a technicality. The Supreme Court held that the case should not have gone to the Superior Court, but maintained that the P. S. Comm. had no right to attack rental payments. For details see V. 113, p. 183, 293.

Comm. in the P. R. T. Co. valuation case. The P. S. Comm. in June 1923 had found the value of the co.'s property to be substantially upwards of \$200,000,000. V. 118, p. 2305.

### CLEVELAND RAILWAY CO.

The receivers of the Municipal Traction Co. having been discharged and the debts of that company provided for, the Cleveland Ry. Co. on March 1 1910 resumed possession of its lines under ordinance (see below) of Dec. 1909. V. 90, p. 626. The lease to Municipal Traction Co. was canceled of record.

**Franchise Ordinance.—Valuation.**—For particulars see "Electric Railway" Supplement of April 26 1924.

**ORGANIZATION.**—Incorporated in Feb. 1893, being a consolidation of the Broadway & Newburgh St. Ry., the Brooklyn St. Ry., E. Cleveland Ry. and So. Side St. Ry. Cos. In 1908 changed name from the Cleveland Elec. Ry. Co. (which had in 1903 taken over the Cleveland City Ry.) to Cleveland Ry. Co., and authorized new stock to the amount of \$35,000,000. The old stock of Cleveland Elec. Ry. was given a valuation of 55 per share, or \$12,870,000 (having formerly been \$23,400,000) and was paid for in new stock issued by Cleveland Ry. at par (\$100 valuation). The Forest City Ry. (which had first absorbed the Low Fare Ry.) was purchased for \$1,805,600 stock of Cleveland Ry., on April 27 1908, the shares of the Forest City Ry. being accepted at their par (\$100) value.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—Operates 417,882 miles of single track, of which 381,933 miles are owned. Mostly 80, 95, 100, 103 and 141 lb. standard rails; 1,456 passenger cars and 217 service cars; 61 single deck and 50 double deck motor coaches.

**Increased Interest on Capital Stock Voted Down.**—The Cleveland City Council on Dec. 29 1919 formally granted an increase in the company's interest rate from 6 to 7% in accordance with the recommendations of a majority of a Board of Arbitration (V. 109, p. 2262; V. 110, p. 261) who conducted an inquiry into this question. On Aug. 10 1920, however, this question was submitted to a referendum vote and defeated. V. 111, p. 692, 1565. Compare V. 110, p. 2387; V. 111, p. 389.

The company on April 1 1920 paid 1 1/4%, but subsequent int. payments are being paid at the old rate of 1 1/4% quarterly. The city has brought suit to compel the company to pay back into the interest fund the \$72,000 paid out in int. over the regular rate on April 1 1920. V. 111, p. 1182, 1277, 1565. In Mar. 1927 the case was pending.

**Fares.**—See V. 123, p. 1995.

### OHIO TRACTION CO.

The affairs of the Ohio Traction company were wound up on Oct. 1 1926, in accordance with the reorganization plan referred to in the previous edition of the Compendium. The preferred and common shares of the stock of the company were exchanged for no par value stock of the Cincinnati Car Co., in accordance with agreement of the stockholders; the cash on hand was distributed through liquidation dividends mailed by the Cincinnati Car Co.; the remaining assets were turned over to that company and the liabilities were also transferred to and assumed by the Cincinnati Car Co. The Ohio Traction Co. now has no funded debt or other obligations, with the exception of a few shares of its preferred stock, the value of which is being arbitrated. The Ohio Traction Co. will relinquish its charter as soon as the stock now in process of liquidation has been redeemed and returned to the company's treasury.

## (THE) CINCINNATI STREET RAILWAY CO.

**ORGANIZATION.**—Organized in Ohio June 1880. In 1901 leased to the Cincinnati Traction Co., but this lease was terminated Nov. 1 1925 and direct operation of the system was resumed by the Cinc. Street Ry. Co. For terms of settlement see V. 118, p. 1011. Having purchased on Nov. 1 1925 all of the rights of the Cincinnati Traction Co. (the former lessee co., which was owned by Ohio Traction Co.), Cincinnati Street Ry. Co. purchased as of April 1 1926 all of the property of The Cincinnati & Hamilton Traction Co., the lease of which property it purchased from the Ohio Traction Co. See for description of the above mentioned companies which are in process of dissolution, "Public Utility Compendium" of Oct. 31 1925. For Ohio Traction Co. see also separate statement above. In Oct. 1925 the issuance of 85,000 shares of stock (par \$50) was under preparation, to be delivered to the Cinc. Trac. Co. as part payment in cancellation of the lease. V. 121, p. 2037. In the same month \$4,500,000 1st M. 6% notes were sold (see hereunder), approx. \$1,240,000 of the proceeds of which was to be paid to the Cinc. Trac. Co. as part of the settlement, while \$1,393,000 were to be used for paying off the bonds of the Ohio Traction Co., assumed in the settlement. V. 121, p. 838, 1460, 2037. Company paid \$1,000,000 stock of Cincinnati Street Ry. to Cincinnati & Hamilton Traction Co. (see V. 122, p. 1607) for the latter company's properties, which included the Millcreek Valley Street car lines from the Zoo to Lockland and Glendale, and the interurban line from Glendale to Hamilton. The pref. and common stock committees of Cincinnati & Hamilton Trac. Co. (\$1,100,000 common and \$1,100,000 pref. stock was outstanding) recommended in March 1926 a division of this Cincinnati Street Ry. Co. stock in the ratio of 4 to 1, viz., \$800,000 to go to pref. and \$200,000 to common stock. Co. thereafter to be liquidated. In June 1926 purchased the tracks of the Cinn. Milford & Blanchester Trac. Co., running from Cincinnati to Milford, a distance of 11 miles.

**Cincinnati & Hamilton Traction Co.**—On March 4 1926 stockholders approved the sale of all of the properties and rights to Cinc. Street Ry. Co. for 20,000 shares (\$50) of common stock of latter co., to be distributed as follows: (a) For each pref. share Cinc. & Ham. Trac. Co. 15-11 shares Street Ry. stock; (b) for each common share Cinc. & Ham. Trac. Co. 4-11 shares Street Ry. stock. Directors also intended to pay a final div. on pref. and com. stock after payment of all liquidation expenses. V. 122, p. 2491.

**Wage Increase** effective July 1 1926, see V. 123, p. 1381.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—Co. owns and operates the entire street railway system in Cincinnati. Owns and controls 280.45 miles of single track; operates 614 motor passenger cars; 60 trailer passenger cars, 166 service cars and 79 motor coaches. **Franchise.**—In 1925 the City of Cincinnati granted the co. a new 25-year "service-at-cost" franchise under the terms of which fares are to be automatically from time to time adjusted to cover all operating expenses, taxes, depreciation and fixed charges, and a 5% return on the capital stock during the first 3 years, and thereafter of 6% per annum. V. 121, p. 2155.

Stock.—Preferred stock is pref. as to assets and divs. It is stated that the common stock will be allowed no voting power unless the pref. divs are paid in full.

Bonds.—The cons. mtge. bonds are limited to an auth. issue of \$15,000,000 up to April 7 1933, after which, the auth. amount may be increased to \$25,000,000, incl. the divisional bonds, if any, then outstanding, and such excess of \$10,000,000 bonds may bear such rate of interest, not exceeding 6% p. a., and be used for any proper corporate objects and purposes of the consolidated co. The \$15,000,000 now authorized will bear int. at not exceeding 6% and shall be issued only for addns. and betterments to and exts., acquisitions and replacements of lines of street railroad which become a part of the street railroad system of the consolidated company in Indianapolis and its vicinity. Bonds shall only be issued to the amount of par value of bonds of the three divisional issues which have been or shall be taken up and canceled by sinking fund payments, so that at no time while any of divisional bonds are outstanding (unless their present dates of maturity shall be extended), shall the aggregate amount of (new and old) bonds secured by mortgages on the property exceed \$15,000,000. But notwithstanding the foregoing, provision may be made in the mortgage for the issuance of bonds to refund the existing mortgage indebtedness, or any part thereof (at maturity). All bonds issued for refunding shall be subject to be taken up and canceled by the sinking fund provisions which were applicable to the refunded bonds in their original form, and when so taken up and canceled, original bonds may be issued in substitution therefor, which, or the proceeds thereof, shall be used only for permanent impts and betterments. Provision may be made in said mortgage that the maturity of any outstanding bonds which become due on or before April 7 1933 may be extended to such date as may be determined by the Board at not exceeding 6% interest if permitted by law.

The lien of the several underlying mortgages is confined to the property and interests upon which each was a lien prior to consolidation and does not extend to any other property of the consolidated company, except as "general debts," without priority after satisfying of the mtge. liens thereon.

The Ind. Trac. & Term. bonds have a sinking fund which provides for the payment annually of 1-5% of bonds outstanding. See V. 76, p. 1085. Bond may be drawn for sinking fund at 102½ and int. and are subj. to call at that price. See V. 81, p. 264. \$1,430,000 in sinking fund canceled. The Ind. St. Ry. bonds have a sinking fund sufficient to redeem at maturity the greater part of the entire issue. \$1,453,000 in sinking fund canceled. The divisional bonds in the sinking funds at the time of consolidation were canceled so that they could no longer draw interest and payments to the sinking funds suspended until 1923. All future sinking fund payments are to be applied to the cancellation of bonds. V. 124, p. 235.

Dividends.—Divs. of 6% (1½% quar.) were paid on pref. stock to and incl. Mar. 1921. None to Sept. 1 1922, when 1½% was paid. Dividends at the same rate of 1½% were paid regularly since to & incl. June 1 1925. None since. V. 121, p. 1788. For explanation of reasons for passing preferred dividends, see V. 123, p. 1762.

**ORGANIZATION.**—A Delaware corporation. Was to acquire the by-products gas plant of the Indiana Coke & Gas Co. situated at Terre Haute, Ind., and also certain property known as "Vigo Mine No. 29." The by-products gas plant began operating in Sept., 1916, with one battery of 30 Gas Machinery Co. by-product ovens. In Jan., 1919, the first battery of 30 Koppers Co. ovens was installed. The operation of the original battery of Gas Machinery Co. ovens was terminated in Jan., 1924, preparatory to replacing them with a second battery of 30 Koppers Co. ovens. The construction of the second battery of Koppers Co. ovens, which was postponed pending certain adjustments with the Government covering wartime operations, was completed on Aug. 7 1926.

**FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.**—The present by-products plant occupies about 34½ acres of land adjacent to the corporate limits of the City of Terre Haute, Ind. It consists of 60 Koppers Co. by-product ovens with full auxiliary equipment for the recovery of gas, coke, tar, ammonia in the form of either ammonia liquor or ammonium sulphate, benzol, toluol, xylol and the naphthas. It has a maximum rated capacity of 1,300 tons of coal per day and has a maximum daily production of 6,500,000 cu. ft. of gas. The coke produced is about equally divided between industrial and domestic uses.

The by-products plant supplies gas at wholesale, under a favorable long term contract, to the Indiana Gas Utilities Co. which serves, without competition, an estimated population of 85,000 in Terre Haute, West Terre Haute, Brazil, and surrounding territory in Indiana. Under this contract the Indiana Gas Utilities Co. purchases its entire gas requirements. The coke output of the plant is distributed through the company's own sales organization to the industrial and domestic trade throughout Indiana, Illinois, Iowa and parts of Wisconsin, Minnesota, Michigan and South Dakota. The sale of the entire output of tar and ammonia is arranged for under contracts with the Barrett Co. and others, while the benzol and light oils find a ready market as motor fuel and for other purposes.—V. 123, p. 1875.

INDUSTRY in its westward movement reached the fertile farming area of the central states in time to set a fitting stage for the application of electricity to both industry and agriculture. Illinois, Wisconsin, Michigan, Indiana and Kentucky contain the materials of economic well-being and have aggressively developed them. It was in this area that the Middle West Utilities Company first applied the plan on which its organization was based, fifteen years ago. That plan had as its objective the provision of a complete electric service to the smaller communities, including power facilities to invite industrial development. Generating stations placed at advantageous points, sending their energy out over a network of transmission lines, interconnected with one another to safeguard reliability of power supply and permit economic production of power by flexible adjustment of capacity to

demand: these have been the essential means by which this purpose has been accomplished.

Grounded on the convenient coal supply of Illinois, Indiana and Ken-

tucky and the water power of Kentucky, Wisconsin and Michigan, the subsidiary operating companies of the Middle West Utilities Company in the central states have so far realized this objective that they have assisted in bringing about a definite trend of industry toward the smaller towns. And, serving the rural districts through which they pass from town to town, the same transmission lines carry productive efficiency to the farm and greater comfort to the rural home.

In nineteen states of New England, the Middle West and Southwest, subsidiaries of the Middle West Utilities Company provide essential services to more than eighteen hundred communities.
